PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience developing enterprise applications using Java 21, Spring Boot, Spring Data JPA, Hibernate, MyBatis, REST APIs, MySQL, and PostgreSQL. Experienced in backend development, dynamic PDF generation, API debugging, database integration, and resolving production issues in an enterprise logistics platform.

EDUCATION

RCC Institute of Information Technology, Kolkata — **Jun 2022-Jun 2025**
Bachelor of Technology (B. Tech) in Electronics and Communication Engineering — **7.8 CGPA**

Central Calcutta Polytechnic — **July 2019-Jun 2022**
Diploma in Electronics and Telecommunication Engineering — **9.1 CGPA**

SKILLS

Languages: Java 21, Python
Backend: Hibernate, Spring Boot, Spring Data JPA, Spring Cloud, Spring Security, Feign Client, MyBatis
Core Concepts: OOPs, Collections, Exception Handling, REST APIs, MVC, Microservices
Tools & Testing: JUnit, Git, GitHub, Eclipse, IntelliJ IDEA, VS Code
Frontend: HTML, CSS, JavaScript, React.js
Databases: MySQL, PostgreSQL, MongoDB
Messaging & Security: Apache Kafka, Keycloak (OAuth2/JWT)
Build & API Tools: Maven, Swagger, Postman
OS: Windows, Linux

PROFESSIONAL EXPERIENCE:

Java Backend Developer | Techoxileo, Kolkata — **Feb 2026 – Aug 2026**

Project: Shipcarte – Enterprise Logistics & Shipment Management Platform

- Developed and enhanced backend features using Java 21, Spring Boot, Spring Data JPA, Hibernate, MySQL, and REST APIs for a production-grade logistics platform.
- Designed and implemented dynamic PDF generation for Bills of Lading (BOL) and Invoices using Thymeleaf, Flying Saucer, and iText PDF, replacing manual document generation with automated backend processing.
- Built and maintained RESTful APIs for shipment, invoice, and order management, integrating backend services with database-driven business logic.
- Implemented audit event tracking by creating dynamic event summaries and maintaining shipment lifecycle history for improved traceability and business reporting.
- Debugged and resolved backend production issues by analyzing application logs, validating API responses, and optimizing database interactions.

TRAINING & INTERNSHIP

Java Full Stack Developer Trainee | QSpiders, Kolkata — **Mar 2025 – Dec 2025**

- Trained in Core Java, JDBC, Hibernate, Spring Boot, and SQL
- Built mini-projects using MVC architecture and CRUD operations
- Practiced backend development and database integration
- Worked with REST APIs and full-stack development concepts

Industrial Trainee – Web Development | NIIT — **Jun 2024 – Oct 2024**

- Developed responsive web pages using HTML, CSS, and JavaScript
- Built static websites and learned UI/UX design fundamentals
- Strengthened understanding of frontend web development concepts

PROJECTS

AI-Powered Fitness Tracker – Microservices Backend — **Oct 2026**

Tech Stack: Java, Spring Boot, Spring Cloud (Gateway, Eureka, Config), Apache Kafka, Keycloak, MongoDB, MySQL, Gemini API | **Code:** GitHub

- Architected a 6-service Spring Boot microservices backend (User, Activity, AI, API Gateway, Config Server, Eureka Server) with service discovery and centralized configuration.
- Secured APIs with Keycloak OAuth2/JWT at Spring Cloud Gateway and built a custom filter that syncs authenticated users to the User Service.
- Implemented event-driven communication with Apache Kafka: the Activity Service publishes workout events that the AI Service consumes asynchronously.
- Integrated the Gemini API to generate personalized fitness recommendations stored in MongoDB; used MySQL (JPA) for user data and global exception handling for failure cases.

Job Portal (Indeed Clone) — **Aug 2025**

Tech Stack: React.js, Spring Boot, PostgreSQL, REST APIs | **Live project:** Job Portal

- Implemented features like job posting, search, authentication, and user dashboards for recruiters and job seekers.
- Integrated REST APIs and implemented role-based access control for recruiters and job seekers.
- Designed the application with a focus on CRUD operations, authentication, and database integration.

CERTIFICATIONS & ACHIEVEMENTS:

- The Joy of computing Using Python, **Elite certificate** holder in NPTEL course (**IIT Madras**, 8-week program)
- **Computing Using Python**, RCC Institute of Information Technology under **Ministry of Electronics and Information Technology (MeitY)**
- **Solved 100+ problems on HackerRank & InterviewBit**
